

BEAUFORT COTTAGE EDUCATIONAL TRUST was set up in 2000. Its aims are to support the educational needs of personnel working in the equine industry who are responsible for the care and welfare of horses. It aims to enable individuals to attain higher standards of proficiency in their respective roles.

To these ends, the Trust has already supported:

- A series of lectures to stud/stable personnel (continuing)
- The attendance of 3 graduate students at the Colic Symposium in Manchester, 2002
- Student travel bursary to the University of Pennsylvania
- Attendee at Workshop on MRLS, Kentucky
- The RCVS equine veterinary nursing scheme
- Lecture to Stowmarket Agricultural Society
- Foal Care Course (2003)

For the present, funding will, from necessity, be of a modest nature; major funding, i.e. for sums of several thousands of pounds or greater, should be sought elsewhere.

Applications for grant aid that fall within the aims stated above are welcome and will be considered by the Trustees at their meeting (held in February, June and October) following receipt.
